Text and symbols on the map

1. The vehicle's current location and a button for viewing the itinerary
2. Map scale
3. List of guidance points in the itinerary
4. Remaining distance to the destination/estimated time of arrival and a button for changing headers
5. Button for listing the itinerary’s Points of Interest (POI) and traffic information
6. Final destination
7. Intermediate destination
8. Guidance point
9. The vehicle (blue triangle) on the planned route
10. Traffic problem and related information
11. Minimize (expanded view) or maximize (full-screen map view)
12. Calculating a new route
13. Repeat the most recent voice guidance
14. Voice guidance On/Off
15. Pause/resume guidance
16. Set a final destination/intermediate destination
17. POI (in this case, a restaurant)
18. Button to reset the map to follow the vehicle (blue triangle)
19. Button for toggling between 2D/3D map views
20. Compass and button for north at the top of the map/current direction at the top of the map
SENSUS NAVIGATION

Sensus Navigation is a satellite-based system providing guidance/directions to a destination and in certain markets, also traffic information.

The system includes features that enable you to set itineraries, search for certain types of points of interest (POIs) along your route, store special destinations, obtain traffic information en route, etc.

The system shows the vehicle's exact location and if at any time you should decide to deviate from the route originally set, a new one will automatically be calculated to your destination.

By enabling you to reach your destination quickly and by the most direct route, Sensus Navigation also helps contribute to improving the environment.

To help you fully utilize the features and benefits offered by Sensus Navigation, we suggest that you familiarize yourself with the information provided in this owner's manual.

---

**NOTE**

- Do not export your Volvo to another country before investigating that country's applicable safety and exhaust emission requirements. In some cases it may be difficult or impossible to comply with these requirements. Modifications to the emission control system(s) may render your Volvo not certifiable for legal operation in the U.S., Canada and other countries.

- All information, illustrations and specifications contained in this manual are based on the latest product information available at the time of publication. Please note that some vehicles may be equipped differently, depending on market-specific adaptations or special legal requirements. Optional equipment described in this manual may not be available in all markets.

- Some of the illustrations shown are generic and are intended as examples only, and may not depict the exact model for which this owner's information is intended.

- Volvo reserves the right to make model and product changes at any time, or to change specifications or design without notice and without incurring obligation.

GETTING STARTED
Getting started with Sensus Navigation
The vehicle’s electrical system (including the navigation system) is activated automatically when the driver’s door is opened.

Navigation On/Off

1 Home button
2 "Navigation" menu line

On
If the navigation system does not show a map on the center display, tap the Navigation line (2).
If the center display does not show the map, press the Home button (1) and then tap Navigation (2).

Off
While the ignition is switched on, the navigation system is always active in the background. It switches off automatically when the ignition is switched off and the vehicle is locked.

WARNING
Observe the following.
• Direct all your attention to the road and make sure that all your concentration is on driving.
• Follow applicable traffic legislation and drive with good judgment.
• Due to weather conditions or time of year affecting the road conditions, some recommendations may be less reliable.

NOTE
The system can be used even when the engine is not running but will be switched off automatically if the battery charge level is low.

Quick guidance to a destination
The following table provides quick information about setting a destination and starting navigation.

Selecting a destination on the map

<table>
<thead>
<tr>
<th>Step</th>
<th>Center display/menu</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>If a map is not shown on the center display.</td>
<td>Press the Home button under the display to open the display’s Home view.</td>
</tr>
<tr>
<td>2</td>
<td>Home view is displayed.</td>
<td>Tap Navigation in the center display's upper menu bar.</td>
</tr>
<tr>
<td>3</td>
<td>A map is displayed.</td>
<td>If this button is displayed, tap it to maximize the map.</td>
</tr>
<tr>
<td>4</td>
<td>The map is displayed.</td>
<td>Scroll to the desired location on the map and press and hold that position on the screen to set it as a destination.</td>
</tr>

GETTING TO KNOW SENSUS NAVIGATION
Common navigation system features
The most common features of the navigation system are described here.

- Where am I?
- Find the vehicle symbol on the map
- Direction at the top of the map/North at the top of the map
- 2D for 3D view
- Zoom
- Scroll
- Change the headers displayed
- Go back to the map view
- "Wrong" language in illustrations

Where am I?
Where is the vehicle's current location?

- Click the vehicle symbol (blue triangle) for information directly on the map.

Find the vehicle symbol on the map

Tap the crosshairs

After scrolling/zooming, it may be difficult to find the vehicle's location on the map. To find it:

- Tap the crosshairs: the map will be reset and will follow the vehicle symbol.

Direction at the top of the map/North at the top of the map

Tap the compass to change the way in which the vehicle symbol moves on the map

The driver can choose between two views:

- North will always be at the top of the map on the center display and the vehicle symbol will move in the current direction on the map (left is west, right is east, etc.).
- The vehicle symbol will always move towards the top of the center display. The map will rotate under the vehicle symbol according to the direction in which the vehicle turns. The compass symbol indicates north (N) on the map and the vehicle's direction (NE in the illustration).
Compass symbols | Direction
---|---
N | North
NE | Northeast
E | East
SE | Southeast
S | South
SW | Southwest
W | West
NW | Northwest

### 2D or 3D view

Tap 2D/3D to toggle between a 2D/3D map display.

In 3D, the vehicle's direction is always upward on the center display. The map will rotate under the vehicle symbol according to the direction in which the vehicle turns.

The compass symbol indicates north (N) on the map and the vehicle's direction is shown at the center of the compass.

The map scale is not shown in 3D.

2D is described in the previous section "Direction at the top of the map/North at the top of the map."

### Zoom

#### Zoom in

To make the map larger:

- Tap the center display twice in quick succession with one finger.
- "Stretch" with two fingers on the center display.

### Scroll

Place a finger on the map and swipe in the desired direction. Scrolling is only possible with the map in maximized view.

- Tap the center display once with two fingers.
- "Pinch" with two fingers on the center display.
GETTING TO KNOW SENSUS NAVIGATION

Change the headers displayed

![Map Screen](image1)

Tap to change map headings

The following headers can be displayed on the map:

- Destination, Estimated Time of Arrival (ETA) or Remaining Time to Arrival (RTA)
- Position and the distance to the destination (Dist).

Changing headers is only possible with the map in maximized view.

Returning to the map view

![Home Button](image2)

Home button below the center display

To return to the map view from another part of the system:

1. Press the Home button.
2. If the center display shows its Home view, tap Navigation at the top of the screen.

Related information

- Navigation in the instrument panel (p. 44)
- Sensus Navigation settings (p. 44)
CONTROLS
Navigation displays and controls
Volvo Sensus Navigation is presented on the instrument panel and head-up display* and controlled using center display on-screen buttons, the right-side steering wheel keypad and voice commands.

Center display
Searching for and setting destinations and making navigation settings are done on the center display.
If the map is not showing on the center display, tap Navigation at the top of the center display’s Home view.

Instrument panel
The map is only shown on the 12" instrument panel. During a trip, the driver receives visual guidance on the instrument panel and voice guidance through the infotainment system's speakers.

Right-side steering wheel keypad and instrument panel
Some of the navigation system's functions, such as Take me home, are controlled from the right-side steering wheel keypad.

Opening/closing the menu
- Press Open/Close (1).

1 Open/Close
2 Left/Right
3 Up/Down
4 Confirm

> Menus with alternatives will be opened or closed. The menu will close automatically after a short period or after certain selections have been made.

* Option/accessory, for more information, see Introduction.
Navigating and making selections in a menu

1. Scroll among the alternatives using the up/down control (3).
2. Confirm or mark a choice by pressing control (4).
   > The function will be activated and after making certain choices, the menu will close.

Head-up-display (HUD) *

![Navigation guidance on the windshield](image)

The driver can also get guidance and information from the navigation system on the lower section of the windshield.

The position of the HUD can be adjusted (see the article "Head-up display").

Voice control

Many settings can be made using voice commands.

![Press the voice button on the right-side steering wheel keypad, wait for the tone and then say, e.g., "Drive Home."](image)

Using voice commands is explained in greater detail in the articles "Navigation system voice control," "Voice control," and "Voice control settings."

Related information

- Navigation system voice commands (p. 21)
- Voice control (p. 20)
- Using voice commands (p. 20)
- Voice control settings (p. 22)

* Option/accessory, for more information, see Introduction.
VOICE CONTROL
Voice control

Voice commands make it possible for the driver to voice-control certain functions in the media player, a Bluetooth-connected cell phone, climate system and the Volvo navigation system*.

Voice control offers convenience and enables the driver to keep his/her hands on the steering wheel and concentrate on driving and the traffic situation around the vehicle.

⚠️ WARNING
As the driver, you have full responsibility for operating the vehicle safely and adhering to all applicable traffic regulations.

Input to the system is in dialog form and comprises commands from the driver and a verbal response from the system.

The voice control system uses the same microphone as the Bluetooth hands-free system and system responses come via the infotainment system’s speakers.

In certain cases, text messages are also provided in the instrument panel.

The functions are controlled using the right-side steering wheel keypad and settings are made from the center console.

System updates
The voice control system is being constantly improved and updates should be downloaded for optimal functionality. See the support site support.volvocars.com.

Related information
- Using voice commands (p. 20)
- Voice control settings (p. 22)
- Navigation system voice commands (p. 21)

Using voice commands

The following is an introduction for using voice commands.

Press the button on the right-side steering wheel keypad to activate the system and initiate a voice command dialog.

Keep the following points in mind when using voice commands:
- When giving a command, speak at your usual speed and in a normal tone of voice after the tone.
- Avoid speaking while the system is responding. Commands cannot be processed during a response.
- Avoid background noises in the cabin when using the system by closing the vehicle’s doors, windows and panoramic roof* when giving voice commands.

Voice command dialogs can be cancelled by:
- Saying “Cancel”.
- By pressing and holding the button on the right-side steering wheel keypad.

To speed up a command dialog or to skip system responses, press the button on the right-side steering wheel keypad when the system is responding and give your next command.

* Option/accessory, for more information, see Introduction.
Voice command examples
Press \( \text{Voice Control} \), say "Call"-"[First-name]"-"[Last-name]"-"[number category]" to call a contact in your phonebook if the person has more than one phone number listed (i.e., home, mobile, work, etc.).

For example, press \( \text{Voice Control} \) and say "Call"-"Robin"-"Smith"-"mobile".

Commands/Phrases
The following commands can always be used:

- **Repeat**: the system will repeat the most recent voice instruction.
- **Cancel**: cancel the dialog.
- **Help**: Initiates a help dialog. The system will provide several alternative commands that can be used in a given situation.

The commands for specific situations are described in the respective articles such as "Cell phone commands", etc.

Numbers
Numbers can be spoken in different ways depending on the context and function being used:

- **Phone numbers and zip codes** should be spoken individually, number by number, e.g., five five five one two three four (5551234).
- **Addresses (house numbers)** can be spoken individually or as a group, e.g., two two or twenty-two (22). It is also possible to say a sequence of numbers, e.g., twenty-two twenty-two (22 22) and "double" or "triple" can also be used, e.g., double zero (00) or triple zero (000). Numbers in the range 0-2300 can be used.
- **Frequencies** can be spoken ninety-eight point eight (98.8), one hundred four point two (104.2) or hundred four point two (104.2).

Related information
- **Voice control** (p. 20)

Navigation system voice commands
Many of the navigation system’s functions can be activated using voice commands.

The procedure for using voice control is described in greater detail in the articles "Voice control," "Using voice control" and "Voice control settings."

Voice commands
The following list contains examples of commands that are unique to navigation system.

To use the voice control system, press the \( \text{Voice Control} \) on the right-side steering wheel keypad and say one of the following commands after the tone:

- **"Navigation":** Starts a navigation voice command dialog and displays available commands.
- **"Take me home":** Guidance will be given to the location set as Home.
- **"Go to [City]:"** Enter a city as a destination, e.g., "Go to New York."
- **"Go to [Address]:"** Enter an address as a destination, e.g., Go to 125 43 St., New York."
- **"Go to Intersection":** Enter an intersection as a destination. The search for the intersection will be done within the specified area.
- **"Go to [Zip code]:"** Enter a zip code as a destination, e.g., "Go to 07405."
• "Go to [Name]: Enter a name from a list of contacts e.g., "Go to John Smith."

• "Search [POI category]: Search for a POI (e.g., a restaurant)\(^1\), which is always sorted according to POIs "around the vehicle." To search along the route, say "Along the route" when the list of results is displayed.

• "Change country/Change state: Changes the country/state in which a search is conducted.

• "Show favorites: Shows a list of Favorites in the center display's Top view.

• "Clear itinerary: Deletes all intermediate destinations in an itinerary.

• "Repeat voice guidance: Repeats the most recent guidance instruction.

• "Pause guidance: Pauses guidance on the map.

• "Resume guidance: Resumes guidance on the map.

• "Turn off voice guidance: Turns voice navigation guidance off.

• "Turn on voice guidance: Turns voice navigation guidance on.

Related information
- Voice control (p. 20)
- Using voice commands (p. 20)
- Voice control settings (p. 22)

---

\(^1\) You can opt to call the POI or set it as a destination.

**Voice control settings**

There are a number of settings that can be made for the voice control system.

Open the center display’s Top view and tap Settings ➔ System ➔ Voice Control and select settings.

- Repeat Mode
- Gender
- Speech Rate

**Sound settings**

Open Top view and tap Settings ➔ Sound ➔ System Volumes ➔ Voice Control.

**Changing languages**

The voice control system only understands the languages marked by the symbol in the list of possible system languages.

Changing the language for this system also affects menus, messages and help texts.

Open Top view and tap Settings ➔ System ➔ Language.

**Related information**

- Voice control (p. 20)
- Using voice commands (p. 20)
- Navigation system voice commands (p. 21)
SETTING A DESTINATION
SETTING A DESTINATION

Entering a destination
There are several different ways of choosing a destination.

A destination can be chosen by:

• Clicking on the map
• Entering free text or coordinates
• Selecting a recently set destination
• Selecting a position marked as a favorite from the library
• Selecting a saved destination from the library
• Selecting a point of interest (POI)
• Entering an Address: e.g., State/city/street/intersection/house number

Select one of the alternatives and follow the instructions given.

Destinations and intermediate destinations (waypoints)
The first location selected will be the itinerary’s final destination.

Any other locations will be the itinerary’s intermediate destinations (waypoints).

An itinerary and its destinations can be edited at any time, see also the section "Editing an itinerary" in the article "Itinerary and alternate routes."

Related information

• Viewing the itinerary and alternate routes (p. 34)
• Setting a destination by tapping the map (p. 24)
• Setting a destination by entering the text of your choice (p. 25)
• Setting a destination using Recent/Favorites/Library (p. 27)
• Using a point of interest (POI) as a destination (p. 29)
• Setting a destination by entering an address (p. 30)

Setting a destination by tapping the map
Tapping a point on the map is one way to set a destination.

To do so:

1. Scroll to the desired point on the map.
2. Press the point until an icon is created there and a menu is displayed.

3. Select Go here to start guidance to that point.

Deleting the icon
Tap Delete.
Changing the icon's location
Press the icon on the map, drag it to the desired position and release it.

Related information
- Entering a destination (p. 24)

Setting a destination by entering the text of your choice
Entering the text of your choice is one way to set a destination.

Entering the text of your choice
The center display's keyboard can be used to enter most characters when searching for a destination.

To display the keyboard:
1. Tap Set dest. in the lower margin. The keyboard opens for entering text.
2. Continue by tapping this symbol at the top of the screen.

Enter text to search for e.g., streets, cities, map coordinates or points of interest (POIs).

1. Enter a word. Possible destinations meeting your search criteria will be listed according to their distance from the vehicle symbol on the map (or from the center of the map if it has been scrolled).
2. Select/mark a selection in the list. Its Info card will be displayed.
3. Follow the instructions on the center display and activate guidance to the destination.

---

1 See also the article "Information cards on the map."
### Setting a Destination

#### Keyboard

1. **Filter**: limit/filter the list of possible destinations.
2. Hide the keys to display a longer list of possible destinations. Tap the field for entering text to return to the keyboard.
3. Tap to toggle between upper and lower case characters.
4. Numbers and special characters
5. Space bar
6. Delete characters to the left of the cursor.
7. Tap to display an area where you can "write" text.

For additional information about using the center display's keyboard, see the article "Using the center display keyboard."

#### Filter

Several filters can be used to limit the size of the list.

#### Filters

The filters available may vary:
- **Along route**: Lists only destinations found along the route.
- **Streets**: Lists only streets/roads meeting the search criteria.
- **Cities**: Lists only cities/towns meeting the search criteria.

#### Filter for POIs

A list of available POIs is displayed at the bottom of the screen, under the three filters.

1. POIs filtered from the marked category (2)
2. POI categories (there may also be sub-categories).

Only POIs from the marked category will be listed and only the Along route filter can be combined with POI.
Coordinates
A destination can also be set by entering its map coordinates.

- For example, enter: "N 58.1234 E 12.5678" and tap Search/.

Map coordinates can be written in different ways, such as:

<table>
<thead>
<tr>
<th>Format</th>
</tr>
</thead>
<tbody>
<tr>
<td>N 58.1234 E 12.5678 (with spaces)</td>
</tr>
<tr>
<td>N58.1234 E12.5678 (without spaces)</td>
</tr>
<tr>
<td>58.1234N 12.5678E (with the points on the compass after the coordinates)</td>
</tr>
<tr>
<td>58.1234 -12.5678 (with a hyphen without the points on the compass)</td>
</tr>
</tbody>
</table>

Both periods [.] and commas [,] can be used.

Related information
- Entering a destination (p. 24)
- Navigation displays and controls (p. 16)
- Information cards on the map (p. 37)

Setting a destination using Recent/Favorites/Library
Selecting from a list is one way of setting a destination.

To display these lists:

1. Tap Set dest. in the lower margin. A keyboard will be displayed with search alternatives in the upper margin.
2. Continue by selecting one of the lists in the upper margin:
   - Recent
   - Favorites
   - Library

After marking an alternative, it will be added as a destination by tapping the Start navigation or Add as waypoint buttons.

Recent
This is a list of all searches that have been made. Scroll through the list and select.

This menu alternative is also available in the instrument panel and can be displayed using the right-side steering wheel keypad (see also the article "Navigation system displays and controls").
This is a list of locations that have been set as favorites from the **Library**. Scroll through the list and select.

A deleted location in **Favorites** always remains in the **Library** but the "star" will not be highlighted. To return it to the list of **Favorites**, go to the **Library** and tap the location's star again.

Use **Set home address** to program a destination that is used often. A destination set as **Home** will also be also available in the instrument panel and can be displayed using the right-side steering wheel keypad (see also the article "Navigation system displays and controls").

Use **Edit** to edit destinations in the list.

This is a list of saved destinations and itineraries. The most recently saved one will be at the top of the list. Scroll through the list and select.

Tap the destination's "star" to select/deselect it as a favorite. A selected destination will also be shown under the heading **Favorites**.

A destination deleted from the **Library** will also be deleted from **Favorites**.

The library can be sorted by:

- **Added**
- **Name**
- **Distance**
- **Received**: this is a filter

With **Received**, destinations sent to the vehicle using the Send to Car function can be filtered. New, unread destinations have a **BLUE** marker that disappears when they have been read. See the article "Saving a destination with send-to-car" for additional information.

Use **Edit** to edit the respective destinations with respect to Name, Location, Internet address and Phone number (max. 3 phone numbers per destination).

**Related information**
- Saving a destination with Send to Car (p. 30)
- Navigation displays and controls (p. 16)
- Entering a destination (p. 24)
Using a point of interest (POI) as a destination

Selecting a point of interest (POI) is one way of setting a destination.

1. Tap Set dest. in the lower margin. A keyboard will be displayed with search alternatives in the upper margin.
2. Continue by selecting a POI from the upper margin.

Examples of POIs

Many POIs (e.g., restaurants) have sub-categories (e.g., Chinese restaurants).

Proposed POIs are listed according to their distance to the vehicle symbol or the center of the map (if it has been scrolled).

See the article "Map settings" for information about selecting the POIs to be displayed on the map. This will show the selected POIs available in the area. This setting does not affect searches for POIs to be used as destinations (even ones that have not been selected for display can be used as a destination).

Certain POIs will only appear if the map scale is greater than 1 mi. (1 km).

Proposed POIs are listed according to their distance from the vehicle symbol on the map or from the center of the map if it has been scrolled.

Related information

- Entering a destination (p. 24)
- Map settings (p. 45)

![Set Dest.]

NOTE

- The appearance, number and variations of POIs vary from market to market.
- Some symbols may be added/deleted when the navigation system's software is updated. The POIs available for the current map system can found in the menu system.

Filters

When an itinerary has been activated and a POI category has been selected, a filter will be available to limit the search list to only show POIs along the route. This list can then be sorted by name or distance.

- Along route: only shows POIs along the route.

With filters activated, the list can be sorted by Name or Distance.
SETTING A DESTINATION

Setting a destination by entering an address
Entering an address is one way to set a destination.

Tap Set dest. in the lower margin. A keyboard will be displayed with search alternatives in the upper margin.

2. Continue by selecting an Address from the upper margin. Additional search fields will be added.

Examples of search fields
The following search alternatives may vary somewhat from market to market. Only those available for your market will be shown in the center display.

Select any of the following alternatives and enter text using the center display's keyboard:
- Country/State/Province
- City/Territory/Zip code
- Address
- Number
- Junction

Related information
- Entering a destination (p. 24)

Saving a destination with Send to Car
Using the Send to Car feature is one way to save a destination.

Send to Car is a function that makes it possible to add a destination/location to the navigation system from a computer.

Send to Car can also be done from a cell phone using Volvo’s Volvo On Call (VOC) service.

VOC can also be used to send a destination from the VOC customer service center to the vehicle.

Right-click the desired location and select Send this location to car
Enter the vehicle's VIN number or Volvo ID and select Send

1. Go to the Internet site here.com; a map service will open.
2. Right-click the desired location.
3. Select Send this location to car.
4. Enter the vehicle's VIN number or Volvo ID.
5. Select Send: the location will be sent to the vehicle's library (list of destinations), where it will be indicated by a blue marker.

The driver will then be alerted to this by a symbol that illuminates in the center display indicating that a destination/location has been sent to the vehicle. Tap the symbol and a card will open showing information and possible alternatives.

Please note that the procedure shown here is just an example from one of many map service providers. See the Volvo Cars support site (support.volvocars.com) for more information about the Send to Car function.

Related information
- Setting a destination using Recent/Favorites/Library (p. 27)
- Entering a destination (p. 24)
ITINERARY AND ROUTE
Viewing the itinerary and alternate routes
During guidance, it is possible to view the itinerary or see if alternate routes are available.

Viewing the itinerary
To view/display the itinerary:

1. Tap Position: or Destination: to display the current itinerary.

Editing an itinerary
An itinerary can be edited:

Viewing alternate routes
The driver can check for alternate routes at any time while guidance is underway. To do so:

1. Tap Position: or Destination: to display the current itinerary.

Select a particular waypoint or Clear itinerary and confirm the choice.
2. Tap **Alternative routes** to view alternate routes (if available) for the remainder of the itinerary.

3. Select one of the following:
   - Fast
   - Eco
   - Scenic

4. Tap the map. The updated itinerary will be shown on the map and guidance will resume.

See also the section "Alternate routes" in the article "Route settings."

### Guidance points in the itinerary

A list of coming guidance points helps the driver prepare for the next turn, etc. by e.g., getting into the correct traffic lane.

Guidance points in an itinerary

A list of coming guidance points will appear on the map when the itinerary is activated. The list can be expanded by tapping the down-arrow (⬇️). Tap the up-arrow (⬆️) to minimize. The next guidance point is always at the top of the list.

Tapping any of the guidance points in the list will scroll the map to the related position. Subsequently tapping the map’s crosshairs (below the 2D/3D button) will return you to the map guidance view where the map shows the vehicle’s current location.

### Related information

- Guidance points in the itinerary (p. 35)
- Choosing a detour (p. 38)
- Information cards on the map (p. 37)
- Route settings (p. 47)
**POIs along the route**

A list of points of interest (POIs) along the route can be displayed.

1. Tap Ahead
2. Then tap "POI" for information about POIs along the route

A list will show the current POI categories e.g., near an exit or service area
1. Select the desired category to open a list, sometimes with sub-categories.
2. Continue to "zoom in" until a particular POI can be selected.
3. Mark a POI in the list. Its information card will be displayed.
4. Select one of the card's alternatives and follow the instructions.

POI suggestions will be listed based on their distance on the map from the vehicle symbol or the center of the map (if it has been scrolled). The POI at the top of the list is closest to the vehicle.

**Related information**
- Using a point of interest (POI) as a destination (p. 29)

**Traffic problems along the route**

A list of traffic problems along your route can be displayed.

1. Tap Ahead.
2. Then tap Traffic for information about traffic problems along the route

**Related information**
- Using a point of interest (POI) as a destination (p. 29)
For information about a specific traffic tie-up:

- Select it in the list to get specific information.

Use the selection **Avoid** to be rerouted to an alternate route to your destination.

**Related information**

- Traffic information (p. 40)
- Traffic information settings (p. 49)

**Information cards on the map**

Each icon on the map for a destination, intermediate destination (waypoint), favorite, POI, traffic problem, etc., has an information card that can be opened by tapping the icon.

Opening an icon’s **Info card** gives the driver up-to-date information about the respective icons. Information and possible alternatives vary depending on the type of icon.

**Example of an information card for a POI**

In this example of a highlighted POI, the driver can select e.g.:

- **Start navigation**: save the POI's location as a destination
- **Add as waypoint**: save the POI's location as an intermediate destination

**Related information**

- Viewing the itinerary and alternate routes (p. 34)
- Guidance points in the itinerary (p. 35)
- Choosing a detour (p. 38)
- Route settings (p. 47)
- Setting a destination using Recent/Favorites/Library (p. 27)
Choosing a detour
Select Detour to avoid the next section of a route if e.g., a road is closed.

Detours

1. Tap Detour: information about an alternate route will be displayed on the map (the alternate route’s distance, estimated travel time, etc.).

   Normally, only short detours are proposed to take you quickly back to your itinerary’s original route if possible.

2. To accept the proposal, tap the sign with information about the detour
   To reject the proposal, tap the X button (Cancel). Guidance will continue along the current route.

3. After a proposal has been accepted, guidance will resume, using the detour as the new route.

   As an alternative to Detour, select another route and leave your itinerary’s current route. The system will update the route automatically and continue guidance to your destination along the most suitable route.

   See also the article "Viewing the itinerary and alternate routes."

TRAFFIC INFORMATION
TRAFFIC INFORMATION

Traffic information

The navigation system constantly receives traffic messages that are broadcast by local radio stations.

See the article "Traffic settings" for the traffic-related settings available to the driver.

NOTE
Traffic information is not available in all areas/states/provinces.

The transmission range for traffic information is being increased continuously.

Directly on the map

Traffic jams, road construction areas, accidents, etc. are shown on the map in the form of various symbols.

In cases of major traffic disruptions, their extent is shown on the map as RED lines along the side of the road (in e.g., road construction areas). This line will also indicate the direction (there will be lines on both sides of the road if both sides are affected).

- Tap the symbol for additional information about the traffic problem.

If the traffic problem affects your chosen route, you can opt to select Avoid to prompt the system to find an alternate route.

Related information
- Traffic information settings (p. 49)
- Traffic problems along the route (p. 36)

Enhanced traffic information (RTTI)

When the vehicle is connected to the Internet, enhanced traffic information (RTTI) may be available.

Example of traffic information

1 Not available in all markets.
3 Real Time Traffic Information
4 Certain markets only.
service sources and GPS data from the vehicle. When a vehicle requests information about the flow of traffic, anonymous data about the traffic situation in the vicinity of the vehicle is provided, which helps enable RTTI to function. This data is only transmitted if RTTI is activated.

Current traffic information is shown for highways/freeways, major roads, secondary roads and in some cases for urban routes.

The amount of traffic information shown on the map depends on the distance from the vehicle, but not farther than approx. 65 miles (100 km) from the vehicle’s current location.

Text and symbols on the map are displayed in the usual way and the traffic flow shows how fast traffic is moving on a given road compared to the posted speed limit. Traffic information is shown in both directions on a road with a colored line in each direction:

- Green: traffic flowing smoothly.
- Yellow: slow-moving traffic.
- Red: traffic tie-up/accident.

**Activating/deactivating**

The vehicle must be connected to the Internet in order to use RTTI.

1. Tap **Settings** in the center display’s Top view.

2. Tap **Navigation** → **Traffic** and select a setting for connected traffic information: **Use RTTI when an internet connection is available**/**Use online traffic information**.

   - Check the box: RTTI is activated and replaces the normal traffic information function.
   - Deselect the box: RTTI will be deactivated and the normal traffic information function will be activated.

If the vehicle’s Internet connection is lost while RTTI is activated, the normal traffic information will activate automatically. If the Internet connection is re-established, RTTI will reactivate.

### Map version

- **Map Information**: information about maps, updates and your favorite regions.

**Related information**

- Sensus Navigation settings (p. 44)  
- Map updates with MapCare (p. 52)
MAP AND SYSTEM INFORMATION
Map updates with MapCare
Volvo Sensus Navigation remote updates can be done directly to the vehicle through an cell phone Internet connection or from a computer with a USB flash drive.

General update information
The system's maps are divided into a number of fixed regions. When updates are done, it is not necessary to update all of the regions at the same time but instead can be done for a specific region or several regions.

One or several regions can be updated from the vehicle's Internet connection. However, for major updates, a computer and a USB flash drive are recommended.

If an itinerary covers several regions, they should all have the same version number to enable the system to calculate the best route to the destination(s).

Updating the map structure
Changing the map structure may sometimes be necessary, e.g., if a region is added or if a large region is divided into smaller ones. If this is the case, normal updates may not be possible and a message will be displayed explaining what has happened.

In this situation, the entire map must be reinstalled from a USB flash drive. For additional information, go to support.volvocars.com or contact a Volvo retailer.

Updating navigation system software
In addition to the maps, the system's software is being steadily developed and has to be updated occasionally. This may mean that newly downloaded map information may not be supported by the navigation system's software. If this happens, a message will be displayed indicating that the software needs to be updated. This can be done by a Volvo retailer or from a USB flash drive.

See the section "Software version" in the article "System settings."

Updates from the vehicle's Internet connection or from a USB flash drive
For detailed information, see the articles "Remote map updates" and "Map updates from the computer with a USB flash drive."

FAQs
<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Can the map database be changed, e.g., from Europe to North America?</td>
<td>Yes, with certain exceptions. Contact a Volvo retailer for up-to-date information.</td>
</tr>
<tr>
<td>How long do map updates take?</td>
<td>This depends on the size of the file(s) and the speed of the Internet connection. Information about the size of the update (in Mb) will be displayed.</td>
</tr>
<tr>
<td>How big is an update?</td>
<td>This varies from market to market. Go to support.volvocars.com or consult a Volvo retailer.</td>
</tr>
<tr>
<td>Updating has not worked. What should I do?</td>
<td>Try the Volvo Cars support site (support.volvocars.com) or contact a Volvo retailer.</td>
</tr>
</tbody>
</table>

Related information
- Remote map updates (p. 53)
- Map updates from a computer with a USB flash drive (p. 54)
Remote map updates
Some preparation is necessary before a remote update can be made through a cell phone Internet connection.

Preparations

Internet connection
The vehicle has to be connected to the Internet using Bluetooth, Wi-Fi, through a cable connected to the USB socket or using the vehicle's integrated modem. A symbol showing the connection's status can be seen in the center display's status bar.

See also the articles "Internet connected vehicle" and "Connecting to the Internet" in your owner's manual.

Downloading maps from the Internet
Downloads are done using the Remote update service in the center display's App view.

1. From the center display's Home view, swipe from right to left to access App view.
2. Open the Remote update service app.
   > A download app will start and an icon in the Maps button will show the number of available updates.
3. Tap Maps to display a list of available updates.
4. Mark the desired region. Tap the down-arrow for information about the current version of the map data or tap Install to see if a newer version is available.

For additional information, see the Volvo Cars support site (support.volvocars.com) or contact a Volvo retailer.

Related information
• Map updates with MapCare (p. 52)
**Map updates from a computer with a USB flash drive**
Some preparation is necessary before a USB map update can be carried out.

### Preparations

#### Computer/USB update procedure

**USB flash drive**
For use in updates, a USB flash drive has to meet the following requirements:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>USB standard (1.0/2.0/3.0):</td>
<td>At least 2.0</td>
</tr>
<tr>
<td>File system (Ext2/NTFS/FAT32):</td>
<td>FAT32</td>
</tr>
<tr>
<td>Capacity (8/16/32/64 GB):</td>
<td>The file size varies from market to market. See the file size under &quot;Detailed information&quot; for your market at the Volvo Cars support site (support.volvocars.com).</td>
</tr>
</tbody>
</table>

### Current map version

Begin by determining the map version before beginning a download. To do so:

1. From the center display’s Home view, swipe from right to left to access App view.
2. Select the Remote update service app.
3. Mark a region and tap the down-arrow for information about the current map version or tap Install to see if there is a newer version.

### Downloading maps from the Internet to a USB flash drive

From a computer with an Internet connection, connect to the Volvo Cars support site.
1. Tap "Detailed information" for the region to be updated.
2. Information about the latest maps for the region will be displayed. Verify that it is newer than the version in the vehicle.
3. Connect a USB flash drive to the computer and download the update to the USB drive.

The amount of time for the download varies according to the size of the file and the speed of the Internet connection.

Transferring the updated maps from the USB drive to the vehicle

General information
This transfer may take between 30–60 minutes depending on the file size. This must be done with the navigation and infotainment systems activated.

If the engine is not running, it may be necessary to connect a battery charger to avoid discharging the battery. An update can also be done while driving.

During a complete map download, certain infotainment system functions may not be available or have limited functionality:

- Navigation
- Voice commands
- Information/media stored on the vehicle's hard drive

Updating
1. Activate the navigation system (see the previous section "Current map version").
2. Connect the USB drive to the vehicle's USB socket in the tunnel console.
3. The navigation system will automatically detect any available updates. The update's progress will be displayed on the screen as %.

The driver must tap Confirm to start the update or Cancel to interrupt it.
4. Tap Confirm. The update will begin and progress information will be shown on the center display.
5. The center display will indicate when the update has been completed. Remove the USB drive from the socket.
6. Verify that the correct map information has been transferred by repeating the procedure in "Current map version."

Interruptions

<table>
<thead>
<tr>
<th>What happens if...</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>...the infotainment system is turned off while an update is in progress?</td>
<td>The process will pause and will continue automatically when the system is reactivated.</td>
</tr>
<tr>
<td>...the USB flash drive is removed from the USB socket while an update is in progress?</td>
<td>The process will pause and will continue automatically when the USB drive is reconnected to the USB socket.</td>
</tr>
</tbody>
</table>

If an update is interrupted, an explanatory text will always appear on the center display.

For additional information, see the Volvo Cars support site (support.volvocars.com) or contact a Volvo retailer.

Navigation license agreements
The following is information for the end-user of the Sensus Navigation system.

END USER LICENSE AGREEMENT FOR DISTRIBUTION BY HERE
FOR THE AMERICAS/ASIA PACIFIC

END-USER TERMS
The content provided ("Data") is licensed, not sold. By opening this package, or installing, copying, or otherwise using the Data, you agree to be bound by the terms of this agreement. If you do not agree to the terms of this agreement, you are not permitted to install, copy, use, resell or transfer the Data. If you wish to reject the terms of this agreement, and have not installed, copied, or used the Data, you must contact your retailer or HERE North America, LLC (as defined below) within thirty (30) days of purchase for a refund of your purchase price. To contact HERE, please visit www.here.com. The Data is provided for your personal, internal use only and may not be resold. It is protected by copyright, and is subject to the following terms (this "End User License Agreement") and conditions which are agreed to by you, on the one hand, and HERE and its licensors (including their licensors and suppliers) on the other hand. For purposes of these terms, "HERE" shall mean

(a) HERE North America, LLC with respect to Data for the Americas and/or the Asia Pacific region and (b) HERE Europe B.V. for Data for Europe, the Middle East and/or Africa. The Data includes certain information and related content provided under license to HERE from third parties and is subject to the applicable supplier terms and copyright notices set forth at the following URL:
here.com/supplierterms

TERMS AND CONDITIONS
License Limitations on Use: You agree that your license to use this Data is limited to and conditioned on use for solely personal, noncommercial purposes, and not for service bureau, timesharing or other similar purposes. Except as otherwise set forth herein, you agree not to otherwise reproduce, copy, modify, decompile, disassemble or reverse engineer any portion of this Data, and may not transfer or distribute it in any form, for any purpose, except to the extent permitted by mandatory laws.

License Limitations on Transfer: Your limited license does not allow transfer or resale of the Data, except on the condition that you may transfer the Data and all accompanying materials on a permanent basis if: (a) you retain no copies of the Data; (b) the recipient agrees to the terms of this End User License Agreement; and (c) you transfer the Data in the exact same form as you purchased it by physically transferring the original media (e.g., the CDROM or DVD you purchased), all original packaging, all Manuals and other documentation. Specifically, Multidisc sets may only be transferred or sold as a complete set as provided to you and not as a subset thereof.

Additional License Limitations: Except where you have been specifically licensed to do so by HERE in a separate written agreement, and without limiting the preceding paragraph, your license is conditioned on use of the Data as prescribed in this agreement, and you may not (a) use this Data with any products, systems, or applications installed or otherwise connected to or in communication with vehicles capable of vehicle navigation, positioning, dispatch, real time route guidance, fleet management or similar applications; or (b) with, or in communication with, including without limitation, cellular phones, palmtop and handheld computers, pagers, and personal digital assistants or PDAs.

Warning: This Data may contain inaccurate or incomplete information due to the passage of time, changing circumstances, sources used and the nature of collecting comprehensive geographic Data, any of which may lead to incorrect results.

No Warranty: This Data is provided to you “as is”, and you agree to use it at your own risk. HERE and its licensors (and their licensors and suppliers) make no guarantees, representations or warranties of any kind, express or implied, arising by law or otherwise, including but not limited to, content, quality, accuracy, completeness, effectiveness, reliability, fitness for
Disclaimer of Warranty: HERE AND ITS LICENSORS (INCLUDING THEIR LICENSORS AND SUPPLIERS) DISCLAIM ANY WARRANTIES, EXPRESS OR IMPLIED, OF QUALITY, PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NONINFRINGEMENT. Some States, Territories and Countries do not allow certain liability exclusions or damages limitations, so to that extent the above may not apply to you.

Export Control: You agree not to export from anywhere any part of the Data or any direct product thereof except in compliance with, and with all licenses and approvals required under, applicable export laws, rules and regulations administered by the Office of Foreign Assets Control of the U.S. Department of Commerce and the Bureau of Industry and Security of the U.S. Department of Commerce. To the extent that any such export laws, rules or regulations prohibit HERE from complying with any of its obligations hereunder to deliver or distribute Data, such failure shall be excused and shall not constitute a breach of this Agreement.

Entire Agreement: These terms and conditions constitute the entire agreement between HERE (and its licensors, including their licensors and suppliers) and you pertaining to the subject matter hereof, and supersedes in their entirety any and all written or oral agreements previously existing between us with respect to such subject matter.

Severability: You and HERE agree that if any portion of this agreement is found illegal or unenforceable, that portion shall be severed and the remainder of the Agreement shall be given full force and effect.

Governing Law: The above terms and conditions shall be governed by the laws of the State of Illinois (for Data for the Americas and/or the Asia Pacific region) or The Netherlands (for Data for Europe, the Middle East and Africa), without giving effect to (i) its conflict of laws provisions, or (ii) the United Nations Convention for Contracts for the International Sale of Goods, which is explicitly excluded. For any and all disputes, claims and actions arising from or in connection with the Data (“Claims”), you agree to submit to the personal jurisdiction of (a) the State of Illinois for Claims related to Data for the Americas and/or the Asia Pacific region provided to you hereunder, and (b) The Netherlands for Data for Europe, the Middle East and/or Africa provided to you hereunder.

Government End Users: If the Data is being acquired by or on behalf of the United States government or any other entity seeking or applying rights similar to those customarily claimed by the United States government, this Data is a “commercial item” as that term is defined at 48 C.F.R. (“FAR”) 2.101, is licensed in accordance with this End User License Agreement, and each copy of Data delivered or otherwise furnished shall be marked and embedded as appropriate with the following
“Notice of Use”, and be treated in accordance with such Notice:

ACCORD DE LICENCE D'UTILISATEUR FINAL DESTINÉ À LA DISTRIBUTION PAR HERE EN LES AMÉRIQUES / ASIE PACIFIQUE

MODALITÉS D'UTILISATION FINALE
Le contenu (« Données ») est livré en mode licence et non de vente. L'ouverture, l'installation, la copie du produit ou autre emploi des Données impliquent le consentement aux modalités de licence. En cas de désaccord avec les modalités de la licence, il est interdit d'installer, copier, utiliser ou transférer les Données. S'il n'y a pas consentement à certaines des modalités de la licence et que les Données ne sont pas déjà installées, copiées ou utilisées le titulaire peut obtenir le remboursement du prix d'achat, en en faisant part dans les trente (30) jours au détaillant HERE North America, LLC (« HERE ») où l'achat a été fait. Pour les coordonnées de HERE, consulter www.here.com Le disque de Données cartographiques (« Données »), est prévu pour une utilisation personnelle, un usage uniquement interne et ne peut en aucun cas être revendu. Il est protégé par les droits d’auteurs et assujetti aux modalités suivantes du présent « Accord de licence d’utilisateur final », ainsi qu’aux conditions convenues entre l’acquéreur du produit et HERE North America, LLC (« HERE ») ou ses concédants (comprenant concédants et fournisseurs). Aux fins des présentes, “Here” signifie

(a) Here North America, LLC pour ce qui concerne des Données pour les régions Amériques et/ou Asie Pacifique et (b) Here Europe B.V. pour ce qui concerne des Données pour l’Europe, le Moyen-Orient et/ou l’Afrique. Les Données incluent certaines informations et contenus concédés sous licence à HERE par des tiers. Les Données font l’objet des conditions de fourniture applicables ainsi que des mentions de copyright indiquées sous l’URL suivant: here.com/supplierterms
MODALITÉS

Restrictions de la licence d'utilisation : Le titulaire de la licence consent à utiliser les Données en question à des fins exclusivement personnelles, non commerciales pour lesquelles la licence a été accordée et non à des fins d’offre de services informatiques, d’exploitation partagée ou autres fins du même type. Le titulaire de la licence consent également à ne reproduire, ne copier, ne modifier, ne décompiler, ne désassembler ou ne concevoir à rebours aucune partie de ces Données et à ne les transférer ni les distribuer sous quelque forme ni à aucune autre fin, sauf dans la mesure permise par les lois prescrites en cette matière.

Restrictions du transfert de la licence : Cette licence restreinte ne permet pas de transférer ou de revendre les Données, sauf à la condition où le transfert des Données et de tous les outils associés est permis sur une base définitive lorsque : (a) aucune copie des Données n’est conservée par le titulaire de la licence; (b) le bénéficiaire accepte les modalités de l’accord de licence de l’utilisateur final; (c) les Données sont transférées sous strictement la même forme qu’à l’achat par cession physique du média original (par ex. le CD-ROM ou DVD d’origine), de l'emballage d’origine, de tous les manuels et autres documents. Les séries multidisques ne peu-vent être transférées ou vendues que sous leur forme intégrale d’origine et non comme une partie de celle-ci.

Restrictions additionnelles de la licence : Sous réserve des consignes particulières d’utilisation transmises par HERE dans la licence et sans limiter la portée du paragraphe précédent, l’utilisation des Données de la licence est sujette aux conditions du présent accord qui prévoit que l’utilisateur ne peut en aucun cas (a) utiliser les Données avec les produits, les systèmes ou les applications faisant l’objet d’une installation sur des véhicules dotés d’un système de navigation, de positionnement, de répartition, de radioguidage routier en temps réel, de gestion de parcs automobiles et d’applications semblables ou (b) les utiliser avec des dispositifs de positionnement et des appareils électroniques ou informatiques mobiles ou sans fil, y compris les téléphones cellulaires, les ordinateurs de poche ou portables, les téléavertisseurs et les assistants numériques personnels ou PDA.

MISE EN GARDE : Ces Données peuvent comporter des informations inexactes ou incomplètes en raison du passage du temps, de l’évolution des circonstances, des sources utilisées et des difficultés par nature de la collecte exhaustive de Données géographiques, de tout ce qui peut conduire à des résultats incorrects.

Exonération de garantie : HERE ET SES TITULAIRES DE LICENCES (Y COMPRIS LEURS PROPRES CONCÉDANTS ET FOURNISSEURS) DÉCLINENT TOUTE GARANTIE, EXPRESSE OU IMPLICITE, DE QUALITÉ, DE PERFORMANCE, DE VALEUR MARCHANDE, D’ADÉQUATION À UN USAGE PARTICULIER OU DE NON-CONTREFACON. Certains États, territoires et pays n’autorisent pas certaines exclusions de garantie, et, dans cette mesure, les exclusions ci-dessus pourraient ne pas s’appliquer.
Exonération de responsabilité : HERE ET SES CONCÉDANTS (Y COMPRIS LEURS PROPRES CONCÉDANTS ET FOURNISSEURS) NE PEUVENT ÊTRE TENUS RESPONSABLES PAR LE TITULAIRE DE LA LICENCE À L'ÉGARD DE TOUTE RÉCLAMATION, DEMANDE OU ACTION, QUELLE QUE SOIT LA NATURE DE LA CAUSE DE LA REVENDICATION, DEMANDE OU ACTION ALLÉGUANT TOUTE PERTES, BLESSURE OU DES DOMMAGES, DIRECTS OU INDIRECTS, QUI POURRAIENT RÉSULTER DE L'UTILISATION OU LA POSSESSION DE CES DONNÉES, OU DE TOUTE PERTES DE BÉNÉFICES, REVENUS, CONTRATS OU ÉCONOMIE ATTENDUE OU DE TOUT AUTRE DOMMAGE DIRECT, INDIRECT, ACCESSOIRE, PARTICULIER OU CONSECUIF, DÉCOULANT DE L'UTILISATION DU TITULAIRE OU DE L'IMPOSSIBILITÉ D'UTILISER CES DONNÉES, DE TOUT DÉFAUT DE CES DONNÉES, OU DE LA VIOLATION DE CES MODALITÉS OU CONDITIONS, QUE CE SOIT DANS UNE ACTION EN RESPONSABILITÉ CONTRACTUELLE OU DÉLICTUELLE OU FONDÉE SUR UNE GARANTIE, MÊME SI HERE OU SES CONCÉDANTS DE LICENCE ONT ÉTÉ AVISÉS DE LA POSSIBILITÉ D'UN TEL DOMMAGE. Certains États, territoires et pays n'autorisent pas certaines exclusions de responsabilité ou limitations des dommages-intérêts, dans cette mesure, la disposition ci-dessus pourrait ne pas s'appliquer.

Contrôle des exportations : Le titulaire de la licence accepte, où qu'il soit, de n'exporter aucune partie des Données de tout produit direct des présentées sauf en conformité, ainsi qu'à toutes les licences et autorisations requises ci-après, aux lois applicables relatives à l'exportation, aux règles et règlements, y compris, mais pas uniquement aux lois, règles et règlements administrés par le Bureau du contrôle des avoirs étrangers du département du Commerce des États-Unis et le Bureau de l'industrie et de la sécurité du département du Commerce des États-Unis. HERE est dispensée de ses obligations en vertu des présentes dans la mesure où de telles lois, règles ou règlements relatifs à l'exportation de cette nature l'empêcheraient de s'y conformer.

Intégralité de l’accord : Ces modalités constituent l’intégralité de la licence entre HERE (et ses concédants, y compris leurs concédants et fournisseurs) et le titulaire de la licence eu égard à l’objet des présentes et remplacent la totalité de toutes les ententes écrites ou orales antérieures conclues entre les parties concernant l’objet des présentes.

Divisibilité : Le titulaire de la licence et HERE reconnaissent que toute partie de l’accord jugée illégale ou inexécutable devra être enlevée et que le reliquat de l’accord restera entièrement en vigueur.

Utilisateurs finaux du gouvernement : Si les Données sont en cours d’acquisition par ou pour le compte du gouvernement des États-Unis ou toute autre personne qui cherche à obtenir ou à appliquer des droits similaires à ceux habituellement réclamés par le gouvernement des États-Unis, ces Données sont considérées comme « article commercial » tel que ce terme est défini dans la réglementation 48 CFR (« FAR ») 2,101, dont l’usage est autorisé conformément à la présente licence de
l'utilisateur final. Chaque copie de Données livrée
ou fournie par d'autres moyens doit être marquée
et inscrite, le cas échéant, avec le texte suivant
« Avis d'utilisation » et devra être traitée
conformément aux Avis de ce type:

AVIS D'UTILISATION
NOM DE L'ENTREPRENEUR (FABRICANT/
FOURNISSEUR) :

HERE

ADRESSE :
425 West Randolph Street, Chicago, IL 60606.

Ces Données commerciales sont des éléments
tels que définis dans la FAR 2.101 qui sont
soumis à la licence de l'utilisateur final en vertu
de laquelle ces Données ont été fournies.

Si l'agent de négociation des contrats, un
organisme du gouvernement fédéral, ou tout
autre fonctionnaire fédéral refuse d'utiliser la
légende fournie dans les présentes, le
responsable des marchés, l'organisme du
gouvernement fédéral, ou tout autre fonctionnaire
fédéral doit en aviser HERE avant de rechercher
des moyens supplémentaires ou autres droits
dans les Données.

COMMON ERRORS
**Sensus Navigation troubleshooting**

The following information provides answers to frequently asked questions.

**The vehicle's location on the map is not correct**
The navigation system's accuracy is approx. 65 ft (20 meters).

Accuracy may be reduced slightly when driving on a road that is parallel with another road, winding roads, multi-level roads and long straight-aways with no distinct curves.

High mountains, buildings, tunnels, viaducts, multi-level roads, etc., may also affect GPS signal reception, which may also reduce the system's capacity to calculate the vehicle's location accurately.

**The system does not always calculate the fastest/shortest route**
Route calculation takes factors such as distance, road width, type of road, number of right/left turns, traffic circles, etc., into account to find the theoretically best route. Familiarity with an area may enable you to find a more efficient route to your destination.

**The system uses toll roads, highways or ferries even though I have chosen to avoid them**
When calculating longer routes, the system may have to choose major roads for technical reasons.

The types of roads that you have chosen to avoid will not be used if there are viable alternatives.

**After being transported, the vehicle's location on the map is not correct**
If the vehicle has been transported (e.g., on a ferry or train) where GPS signals have been blocked, it may take up to 5 minutes before its location will be shown correctly.

**The car symbol moves erratically after new tires have been installed**
In addition to GPS signals, the navigation system also uses the speedometer and a gyroscopic sensor to calculate the vehicle's current location and speed. If e.g., a spare tire or snow tires have been installed, the system has to "learn" the new tire dimensions. To do so, drive for a short period on a road with unobstructed GPS reception.

**The map does not correspond to actual road conditions**
Due to road changes/additions/rerouting/new traffic regulations, the map database may not be up-to-date. The database is continuously being updated. Consult your Volvo retailer.

Switch off the navigation system and the ignition. Restart but remain at a standstill for a minute or so before driving.

**The map information is not up-to-date**
See the next heading.

**How can I check which map version I have?**
1. From the center display's Home view, swipe from right to left to display App view.
2. Select the Remote update service app.

This contains information about the current map version. See also "Updating map data with MapCare" for additional information or contact your Volvo retailer.
